IN GREECE, some trial of the eight  
year cycle or OCTAETERIS WAS MADE  
in a cycle of 8 years; 5 of the years  
had 12 lunar months; 3 had 13. This  
offered a rough reconciliation of the  
lunar and solar years

$$99 \text{ months of } 29.530588 \text{ days} = 2923.52821^{\text{days}}$$
